CORE COMPETENCIES

- Object-Oriented Programming
- Database Management
- Software Development Lifecycle
- Application Customization
- Report Development
- Troubleshooting and Issue Resolution
- Technical Documentation
- Root Cause Analysis
- Joint Application Development
- Project Execution and Management

IT SKILLS

- Java Development
- SQL Log Analysis
- C Business Functions
- BI Publisher
- Object-Oriented Design
- PISQL, XML and XSLT
- Data Structures and Algorithms
- Web Programming (HTML, CSS, JavaScript)
- Agile Methodologies

EDUCATION

- **2022:** Bachelor of Computer Sciences BSc (CS) from Fergusson College Pune with CGPA: 9.94

CERTIFICATION

- Oracle Certified Associate
- Java SE 8 Programmer
- C++ certification

PERSONAL DETAILS

Date of Birth: 8th February 1999
Languages Known: English, Hindi, Marathi, Kannada
Address: Near Boramani bridge Boramani, Tal. South Solapur, Dist. Solapur, Maharashtra 413002

Bhimashankar Halasage

Java Developer

Profile Summary

- Demonstrate one year of practical experience as a Java Developer at Deloitte Consulting LLP, with a strong base as an Oracle Certified Java SE8 Programmer.
- Currently excelling as a JDE Technical Developer, specializing in optimizing the functionality and performance of JDE Objects to meet specific company requirements.
- Excel in SQL log analysis, C business functions, and BI Publisher with a strong skill set.
- Demonstrate a track record of analyzing user needs, creating efficient coding solutions, and fostering collaboration for robust and scalable Java applications.
- Acknowledged for proficiency in object-oriented design, algorithms, and web programming, encompassing HTML, CSS, and JavaScript.
- Showcased successful planning, tracking, and management of deliverables, while actively promoting the adoption of Agile methodologies for swift project delivery.
- Proficient in unit testing and debugging, ensuring the delivery of high-quality, error-free Java applications and contributing to a robust software development lifecycle.
- Achieved an improvement in report running time by optimizing SQL log analysis and implementing performance enhancements, resulting in enhanced system performance and user experience.
- Currently responsible for enhancing the functionality and performance of JDE Objects, focusing on reports and applications to meet specific company requirements, while also troubleshooting technical problems and maintaining detailed technical documentation for all customizations and reports developed.

Work Experience

Aug'22 to Present | Deloitte Consulting LLP
Growth Path: JDE Developer Aug'22 – Aug'23
Java Developer Aug'23 – Present

Key Result Areas as Java Developer:

- Currently leading the development and customization of Java applications, showcasing a track record of analyzing user needs and delivering efficient coding solutions.
- Applying expertise in object-oriented design, data structures, and algorithms to enhance the robustness and scalability of Java applications.
- Partnering with cross-functional teams to analyze requirements and execute effective coding solutions.
- Displaying exceptional organizational skills in strategizing, monitoring, and overseeing deliverables for short-term sprints and long-term software deployments.
- Actively participating in the implementation of Agile methodologies, leading to swifter and more adaptive project delivery.

Highlights:

- Implemented a new caching mechanism that resulted in reduction in application response time, significantly improving the overall performance of the Java applications.
- Led the development and customization of Java applications, ensuring the delivery of effective coding solutions and collaborating with cross-functional teams to analyze requirements and implement efficient coding solutions.

Key Result Areas as JDE Developer:

- Improved the functionality and performance of JDE Objects, with a focus on reports and applications tailored to meet specific company needs.
- Executed customizations and devised new functionalities by comprehending business requirements and crafting innovative solutions.
- Created operational and analytical reports, showcasing proficiency in standard C business functions for tax functionality and custom tax modifications in reports.
- Resolved technical issues, conducted log analysis, and improved report running time to enhance system performance.
- Preserved comprehensive technical documentation for all customizations and developed reports.

Highlights:

- Streamlined the report generation process, resulting in reduction in report running time and enhancing system performance, thereby improving operational efficiency and user satisfaction.
- Collaborated with business stakeholders to identify and implement new functionalities, meeting specific business requirements and contributing to the overall enhancement of JDE Objects.
